Model-theoretic methods in non-archimedean geometry

27–31 January 2025 | University of Münster, Germany

The workshop is aimed at algebraic and arithmetic geometers curious about the potential application of model theory in their research, as well as at model theorists who are keen to learn how their tools may be extended to answer questions of geometric interest.

Speakers Mini-courses

Immanuel Halupczok (Düsseldorf)
Katharina Hübner (Frankfurt)
Franziska Jahnke (Münster)
Remi Jaoui (Lyon 1)

Speakers Research Talks

Sylvy Anscombe (Université Paris Cité)
Wiesława Nizioł (Sorbonne Université, Paris)
Michael Temkin (Hebrew University, Jerusalem)
Vaidehee Thatte (King's College, London)
Jinhe Ye (Oxford)

Organisers

Piotr Achinger (IMPAN, Warsaw)
Franziska Jahnke (Münster)
Michal Szachniewicz (Oxford)
