Blended Intensive Programme (BIP) in Intercultural Communication: “*Developing Skills for Effective International Cooperation*”

Intercultural Management in HEIs: Developing Skills for Effective International Cooperation

General Course Information

- **Course Description:**

The BIP on intercultural management aims to provide administrative and management staff from Ulysseus partner universities with essential skills and knowledge for effective international cooperation. The programme is tailored for individuals keen to further their ability to manage cultural differences and inter-institutional collaboration in a multilingual environment effectively. The Ulysseus European University Alliance will serve as a practical model for the theoretical framework. Through its structure, the alliance facilitates a comprehensive understanding of intercultural dynamics while enhancing the professional competencies essential for collaboration in a multicultural academic environment. By engaging with real-world scenarios, the participants will gain valuable insights into effective communication, diversity management and teamwork across diverse cultural contexts, preparing them for success in an increasingly interconnected world.
