

17th – 20th March 2025

3rd Münster Evolution Meeting

Present and discuss evolutionary questions across all fields (Botany, Zoology, Microbiology, Medicine, Philosophy, ...) and levels (from molecules to societies)!

The Münster Evolution Meeting (MEM) wants to provide a forum for all Evolutionary Biologists working across different fields. Besides having the opportunity to share and learn about excellent research in evolutionary biology MEM also aims at bringing together Evolutionary Biologists working in German-speaking countries in a smaller setting, to allow for intensive networking and discussion. Münster is a welcoming and vibrant university town, offering a perfect venue.

This year we will have a special **Graduate Excellence Symposium** and a **Graduate Student Networking Event** organized together with **DZG Evolutionary Biology Section!**

Confirmed speakers

- | | |
|------------------------------|----------------------------|
| Prof. Dr. Annette Becker | Dr. Iker Isarri |
| Prof. Dr. Arndt von Haeseler | Dr. Lukas Schrader |
| Dr. Astrid Böhne | Prof. Dr. Lutz Becks |
| Dr. Clemens Kuepper | Prof. Dr. Miriam Liedvogel |
| Prof. Dr. Eva Stukenbrock | Prof. Dr. Ralf Sommer |
| Prof. Dr. Hanna Kokko | Dr. Sonja Grath |

Organizers

- Prof. Dr. Jürgen Gadau
- Prof. Dr. Katja Nowick
- Dr. Pete Czappon
- Dr. Dhevi Kalyanaraman
- Dr. Bahar Patlar
- Dr. Taina Conrad
