

Joint phi Club and GS-NP Symposium

Infection Biology and Natural Products: Challenges and Opportunities

June 25 - 26, 2024

Multiscale Imaging Centre
(MIC)

Röntgenstraße 16
48149 Münster

Keynote speakers

Heike Brötz-Oesterhelt (Tübingen) “Elaborate mechanisms of natural product antibiotics”

Harald Groß (Tübingen) “Uridyl peptides reloaded - New insights into the investigation of this promising class of antibiotics”

John McKinney (Lausanne) “Microengineered models of urinary tract infection”

Michael Meyer-Hermann (Braunschweig) “Increasing antibody diversity by antibody feedback”

Olivier Potterat (Basel) “Library-based discovery of bioactive natural products”

Ulrike Protzer (Munich) “HBV-Cure by stimulating adaptive immunity”

Cynthia Sharma (Würzburg) “Small RNAs and small proteins in stress response and virulence control of pathogenic Epsilonproteobacteria”

Thomas J. Schmidt (Münster) “*Arnica*: Traditional European herbal medicine as new therapy for cutaneous Leishmaniasis, a neglected tropical disease”
