

Übersicht zu möglichen Bachelor/Masterarbeitsthemen im Arbeitsbereich Neuromotorik und Training					
Theoretical / Empirical	Contact Information	Student level (BSc/MSc)	Desirable skills	Possible timeframe	
Age effects on motor related cortical potentials during the flanker task	Empirical <a href="mailto:stephanie.froehlich@uni-muenster.de">stephanie.froehlich@uni-muenster.de</a>	BSc/MSc/MEd	Dataprocessing with Matlab and/or Python, Interest in EEG, high level of self-organisation	asap	
Erstellung und Evaluation von digitalen Lehrmaterial für das Seminar Leichtathletik	Theoretisch/praktisch/ empirisch <a href="mailto:matthias.hendricks@uni-muenster.de">matthias.hendricks@uni-muenster.de</a>	BSc/MSc	Erfahrungen / Interessen im Bereich LA	ab jetzt	
A systematic review on the effects of dual tasking on motor control (with focus on motor variability)	Systematic Review <a href="mailto:julian.rudisch@uni-muenster.de">julian.rudisch@uni-muenster.de</a>	BSc/MSc	N/A	ASAP	
Gender differences in training effects on cognitive and dual-task performance in older adults	Empirical <a href="mailto:robert.stojan@uni-muenster.de">robert.stojan@uni-muenster.de</a>	BSc/MSc	R (basic, not mandatory)	ASAP	
Effects of cardiovascular fitness on brain function during dual-task walking or driving in older adults	Empirical <a href="mailto:robert.stojan@uni-muenster.de">robert.stojan@uni-muenster.de</a>	MSc	R (basic, not mandatory)	ASAP	
Effects of physical, cognitive, and/or combined physical training on brain activation during dual-task walking and driving in older adults	Empirical <a href="mailto:robert.stojan@uni-muenster.de">robert.stojan@uni-muenster.de</a>	BSc/MSc/MEd	N/A	ASAP	
A systematic review on the brain functional aspects of complex motor-cognitive real-world tasks in older adults	Systematic Review <a href="mailto:robert.stojan@uni-muenster.de">robert.stojan@uni-muenster.de</a>	MSc/MEd	N/A	ASAP	
Neural Correlates of Freezing of Gait in Parkinsons' Disease	Empirical/Systematic Review <a href="mailto:robert.stojan@uni-muenster.de">robert.stojan@uni-muenster.de</a>	MSc/MEd	N/A	ASAP	
Grip Forces and Kinematics in Human Handover Actions <a href="https://www.uni-muenster.de/Sportwissenschaft/Neuromotor-Behavior/forschung/handai/index.html">https://www.uni-muenster.de/Sportwissenschaft/Neuromotor-Behavior/forschung/handai/index.html</a>	Empirical <a href="mailto:lena.kopnarski@uni-muenster.de">lena.kopnarski@uni-muenster.de</a> <a href="mailto:julian.rudisch@uni-muenster.de">julian.rudisch@uni-muenster.de</a>	BSc/MSc Lehramt	Motion Tracking, Grip Force Measurements, R (not mandatory)	ASAP	
Movement behaviour in children during corona times	Empirical <a href="mailto:tajanssen@wwu.de">tajanssen@wwu.de</a>	Bachelor	data will be detected in a pilot study that will start around February/march	Starting of the pilot in February/Mar ch	
The effects of a mid-season World Cup on injury numbers in the English Premier League	Empirical <a href="mailto:julianr@uni-muenster.de">julianr@uni-muenster.de</a>	BSc / MSc	Website scraping is useful.	ASAP	
The evolution of female match play: are females harder, better, faster, stronger	Empirical <a href="mailto:julianr@uni-muenster.de">julianr@uni-muenster.de</a>	BSc / MSc		ASAP	
Most common symptoms and perceived performance decrements in female athletes: A systematic review	Review <a href="mailto:julianr@uni-muenster.de">julianr@uni-muenster.de</a>	BSc / MSc	Good literature searching skills	ASAP	
Recording and analysis of fNIRS signals during cognitive tasks in post-COVID patients and control subjects (old and young).	Empirical <a href="mailto:dieter.kutz@uni-muenster.de">dieter.kutz@uni-muenster.de</a>	MSc	Knowledge of fNIRS measurements	ASAP	
Dynamic analysis of fNIRS signals in postCOVID patients	Theoretical / empirical <a href="mailto:dieter.kutz@uni-muenster.de">dieter.kutz@uni-muenster.de</a>	MSc	Knowledge of fNIRS measurements	ASAP
