

DAAD-Prize 2024

For international students of the University of Münster

The DAAD Prize is a distinction of foreign students for remarkable social commitment and outstanding academic achievements. The prize is endowed with 1,000 euros.

The potential candidate should be in the advanced stage of the Bachelor's or Master's degree (at least 2nd year of study), engage in social and community involvement and provide good academic performance. In addition, recent graduates (i.e., those who have completed their studies within the past three months) and doctoral candidates may be nominated. Exchange students and "Bildungsinländer*innen" are not eligible for nomination. The prize is not a research prize and is not intended for scientific appraisal of a doctoral thesis.

For the DAAD Prize, potential candidates cannot apply themselves but must be nominated by a professor. The final selection is then made based on submitted documents by a commission of the International Office.

You know of suitable candidates at your department? We are looking forward to your nomination.

For a nomination, the following documents must be submitted by 31 July 2024:

1. Nomination letter from a professor
2. Curriculum vitae
3. Current overview of grades/transcript of records
4. Proof of social or intercultural commitment
6. Copy of the candidate's residence permit (in case of EU citizens: copy of passport or ID card)

Please send the application documents combined as a single PDF file to: daadprize@uni-muenster.de
